Overview

The purpose of this course is to help you improve your overall English skills, especially your ability to speak. To achieve this, you will be given many opportunities to converse with your classmates and the instructor, a native English speaker from the United Kingdom (more specifically, England). By attending regularly and by participating enthusiastically in the class, you will most likely develop your fluency skills, build a stronger vocabulary, become a better listener, and learn some basic grammar. In this context, *fluency* refers to the speed and rhythm of your speech, and *building a stronger vocabulary* refers to learning new words and expressions. **Ultimately, communicating effectively is the main goal; you do not need to use perfect English (grammar) to achieve this!** As mentioned above, there is a lot of interaction in every class (talking to other students [and the instructor]); therefore, if you enjoy being sociable and communicating with others, you will hopefully have a lot of fun as well as improve your command of English!

The textbook for this course is **Active English Discussion 2, Second Edition** by Andrew Finch (Pearson/Longman). The book is available to purchase online (check [교보문고](https://product.kyobobook.co.kr/detail/S000000677154) [https://product.kyobobook.co.kr/detail/S000000677154] or [yes24.com](https://www.yes24.com/Product/Goods/34763695) [https://www.yes24.com/Product/Goods/34763695]) for approximately ₩14,000 (you can also check 잉글리쉬플러스 [042-472-6722]). Additional class materials will also be used throughout the 6-week course.

There are **five classes per week** (Monday to Friday), each lasting 50 minutes.
