Overview

In this class, you will improve your ability to express yourself in English while also strengthening your English skills in general. Through a wide range of conversation-based activities, you will build confidence in speaking and develop greater fluency in everyday communication. **You will be encouraged to express yourself freely with both your classmates and the instructor in a supportive and relaxed environment, where making mistakes is seen as a natural part of learning.** In the process, you will be exposed to a wealth of new vocabulary as well as natural (British) English sentences, idioms, and phrasing commonly used in real-life situations. You will gain valuable experience interacting with different speakers and responding naturally in conversation, and in this way, you will also improve your listening skills. Regular group feedback will be given to ensure and consolidate your learning.
